

BLAZE FIGHTER®

UTILITY POLE INTUMESCENT COMPOUND

Crosslink Technology Inc.
Epoxies, Urethanes • Custom Cast Parts

Blaze Fighter®

A cost-effective protection against brush fires

Blaze Fighter® is an easy to use, convenient-to-apply product for the protection of wood structures against damage from brush fires.

Applied correctly, it will protect wood structures against damage by slow moving brush fires of extended duration. The product was specifically developed for the protection of wood utility poles but may also be used to protect wood fences and similar structures.

It is applied by spraying, utilizing an air driven dispense gun supplied by Crosslink Technology Inc. as part of each starter kit.

Features

- Simple and clean to apply
- Effective within 10 - 15 minutes after application
- Exceptional adhesive properties, even to treated wood
- 100% solids, allows material to build up a thick coating
- Partially used cartridges are easily resealed for subsequent use
- Minimal or no surface preparation required
- Can withstand multiple fire cycles
- Seals cavities/holes/cracks
- May be applied in a wide range of temperatures
- Gaffable after full cure
- Physically durable
- Superior Weather and UV resistance
- Excellent shelf life
- No heavy containers to carry to the job site

Lineman Benefits

- No annoying mess getting clothes, gloves or tools messy
- No kneading or mixing required
- No weighing or measuring
- Clean and easy to store on the truck
- No heavy lifting required
- Effortless application (the gun does the work)
- Non-toxic, only minimal safety gear required
- Sealed non-spilling cartridges

Our **Blaze Fighter®** intumescent compound was specifically developed to protect wood utility poles and other wood structures against damage by grass and brush fires.

The best protection is obtained by applying the compound well ahead of time in areas where the potential for brush fires exist.

Because the product was designed to provide effective protection in a short period of time after application, it is also suitable for use in emergency situations.

Easy-to-use gun applicator with spray attachments

The system requires the availability of compressed air at the job site.

Long-lasting and UV-resistant visible white finish

The product is suitable for application to:

- ✓ Electric Utility Poles
- ✓ Telephone Poles
- ✓ Wood Fences
- ✓ All types of wood structures

**BLAZE
FIGHTER®**
